

# NDIS Success

Supporting aspiring and existing NDIS providers to establish and expand services.

## About NDIS Success

More NDIS services are needed across Australia, particularly in regional, remote, and Aboriginal and Torres Strait Islander communities. NDIS providers may already operate in and around these areas, but a greater variety of services is required to meet the needs of individuals.

NDIS Success is a free program that equips participating individuals and organisations with the tools to:

- ▶ Expand service offering or adapt and scale current services.
- ▶ Structure their business model for new NDIS services.
- ▶ Learn effective strategies to ensure organisational sustainability within the NDIS market.

## Program content

The program includes webinars, worksheets and templates, as well as tools, information, and online resources.

### Webinars

The webinars are structured in two streams. One for managers and business owners, the other for board or management committees.

#### Management Series

1. Success in the NDIS
2. Understanding the market
3. Service design
4. Quality, compliance and risk
5. Strategies for success
6. Sustainability in the NDIS

#### Governance Series Webinars

1. Success in the NDIS market
2. Strategy, risk and impact

## Worksheets and business plan template

Each webinar is accompanied by a worksheet that will guide you through important questions that should be discussed within your organisation to ensure you are establishing a sustainable service. Once you have completed the worksheets you can then use the business plan template to make a compelling argument to your managers and board to start or expand your NDIS services.

## Testimonials

“ The targeted webinars helped us to prepare our NDIS program and improve our marketing strategies. It has been imperative to have staff, members and volunteers go through this process with us so that the whole organisation knows what the NDIS is, how to apply, who needs to apply and what systems and processes we need to set up to successfully transition. ”

“ CBB provide a wealth of material on NDIS and how to succeed in this domain. I wish I had come across this 18 months ago, it would have saved me many hours struggling with the maze of information on the web for NDIS providers and participants. Thank you, CBB, for such a wonderful suite of information delivered in a concise and effective manner. ”

## How to participate

Visit [cbb.com.au/ndissuccess](http://cbb.com.au/ndissuccess) to access the free NDIS Success program content.

*NDIS Success is funded by the Australian Government Department of Social Services. CBB's Community Development Fund is also contributing funds to the program. It is free for participating organisations.*
